Houmame Kharbouch

Full Stack Developer

dev.humam@gmail.com • +212639013151 • Morocco • humam.tech

Profile

Results-driven Full Stack Developer with 3+ years of experience designing, building, and scaling production-grade web applications, with strong ownership across system architecture, backend services, and performance-focused front-end delivery.

Professional Experience

Software Engineer, *Cadipi Startup*   2025 – Present | Remote
- Architected and currently developing an international multi-tenant business intelligence SaaS platform for enterprise analytics.
- Designing high-performance, normalized **PostgreSQL** schemas optimized for large-scale analytical queries.
- Building modular, scalable backend services with **Express.js** and **TypeScript**, ensuring clean architecture and maintainability.
- Implementing containerized DevOps workflows using **Docker** and **CI/CD pipelines** for reliable, secure, and monitored deployments.

Freelance Full Stack Developer, *Self-employed*   2022 – Present | Remote
- Delivered end-to-end full-stack web solutions for clients across **service-based, and content-driven platforms**, translating business requirements into production-ready systems.
- Designed and implemented **responsive, SEO-optimized, high-performance front-end applications** using **React and Next.js**, improving load times, accessibility, and search visibility.
- Owned deployment and ongoing maintenance workflows, implementing **CI/CD pipelines**, managing **domains, hosting, and SSL**, and establishing **basic monitoring and uptime controls** to ensure application reliability.

Full Stack Developer, *RITECHCO*   02/2025 – 08/2025 | Morocco
- Led the end-to-end development of **Blanaty.ma** ⧉, a production-grade booking platform for **beauty and wellness services**, from system design to deployment.
- Designed and implemented **relational PostgreSQL schemas** using **Prisma ORM**, ensuring data integrity, query efficiency, and scalability for transactional workloads.
- Developed and documented **RESTful APIs** supporting core business flows, including **user authentication, service booking, payments, and business discovery**.
- Built **real-time analytics and operational dashboards** for administrators and premium users, enabling live activity monitoring and faster operational decision-making.

Skills

Frontend
React, Next.js, TypeScript, JavaScript, HTML5/CSS3, Tailwind CSS, Sass

Backend
Node.js, Express, REST API design (auth, pagination, versioning)

Databases & ORM
PostgreSQL, Redis, MongoDB, Prisma

DevOps & Tools
Docker, CI/CD, Git, Linux, Nginx, AWS S3

Languages

Arabic • English • French
